PHASE	QUESTION	EVIDENCE
A · SOURCE	What is immutable, unclear and editable? ¿Qué es inmutable, qué no está claro y qué es editable? / O que é imutável, o que está indefinido e o que pode ser editado?	Approved source + marked anchors Imagen de origen aprobada + anclas marcadas. / Imagem de origem aprovada + âncoras marcadas.
B · OBJECTIVE	What measurable result defines success? ¿Qué resultado medible define el éxito? / Qual resultado mensurável define o sucesso?	Objective + reject criteria Objetivo + criterios de rechazo. / Objetivo + critérios de rejeição.
C · EXECUTION	Which prompt, platform and settings were used? ¿Qué prompt, plataforma y configuración se utilizaron? / Qual prompt, plataforma e configurações foram utilizadas?	Exact prompt + configuration Prompt exacto + configuración. / Prompt exato + configurações.
D · AUDIT	What passed or failed across LOCK/RESCUE gates? ¿Qué aprobó o falló según las verificaciones LOCK/RESCUE? / O que foi aprovado ou reprovado nas verificações LOCK/RESCUE?	Scores + crops + notes Puntuaciones + recortes + notas. / Pontuações + recortes + observações.
E · DECISION	Approve, correct, regenerate or discard? ¿Aprobar, corregir, regenerar o descartar? / Aprovar, corrigir, regenerar ou descartar?	Final result + lesson learned Resultado final + lección aprendida. / Resultado final + lição aprendida.

EVIDENCE RULE Do not describe a case without source, result, settings and an explicit decision. Use images you own or are authorized to reproduce.

REGLA DE EVIDENCIA No documente un caso sin incluir la imagen de origen, el resultado, la configuración y una decisión explícita. Utilice únicamente imágenes de su propiedad o para las que cuente con autorización de reproducción.

REGRA DE EVIDÊNCIA Não documente um caso sem incluir a imagem de origem, o resultado, as configurações e uma decisão explícita. Utilize apenas imagens de sua propriedade ou para as quais possua autorização de reprodução.

ONE CYCLE Correct one deviation family per cycle. If two attempts expand the error, change strategy or regenerate from the approved source.

Resolved training case

Caso formativo resuelto / Caso formativo resuelto

PHASE	RESOLVED RECORD
A	Source: locked residential exterior. Preserve camera, massing, openings, wall and landscape positions.
B	Objective: high-end photorealism. Reject if the result becomes a physical-model study or loses the approved environment.
C	Base: PRO realism workflow; one controlled lighting/material pass; no camera effect or geometry module.
D	Candidate rejected: presentation language and context do not meet the objective. Architecture remains useful as evidence, but the visual task is wrong.
E	Return to the approved source and the correct base objective. Final result approved after camera, openings, material and context comparison.

TRANSPARENCY This training case is assembled from Visual Prompt Studio-owned library assets to demonstrate the audit protocol; it is not presented as a chronological production log.
