CONTROL THE PROJECT. TRANSFORM THE IMAGE.

Professional documentation system for controlled AI-assisted architectural visualization.

INCLUSION · Starter

EN MASTER · ES/PT REFERENCE · MAXIMUM PRESERVATION COMPATIBLE WITH MODEL + INPUT

Your route

Tu recorrido / Seu percurso

PACK RULE Open the primary resources in the exact numeric order used in the delivery folder. Each main resource appears once in this route. Prompt libraries, editable forms and optional support resources should be opened only when required by the workflow. Apply optional resources only after the base result has been reviewed and approved.

ORDER	ACTION	FILES / RESOURCE	OUTCOME
00	START	START HERE · Starter	Understand the pack
01	QUICK	Quick Start · Starter	First controlled result
02	EXECUTE	Core Prompt Library 11	Choose one compact base prompt
03	CORRECT	RESCUE Quick	Correct or reject a failed result
04	LEGAL	License & Responsible Use	Confirm permitted use
05	UPDATE	Changelog & Update Policy	Verify release and eligibility

First controlled result

Primer resultado controlado / Primeiro resultado controlado

1. Choose one approved source and one objective.
2. Select one CORE prompt; do not merge alternatives.
3. Copy the complete EN MASTER block and generate one test.
4. Audit geometry/camera first; apply RESCUE Quick only if needed.

LANGUAGE POLICY EN MASTER is the operational copy/paste text. ES and PT are reference translations. Prompts define a control objective, not a guaranteed result; verify geometry, camera, materials, light, scale, context and artifacts before delivery.
