CONTROL THE PROJECT. TRANSFORM THE IMAGE.

Professional documentation system for controlled AI-assisted architectural visualization.

INCLUSION · Studio Pro

EN MASTER · ES/PT REFERENCE · MAXIMUM PRESERVATION COMPATIBLE WITH MODEL + INPUT

Your route

Tu recorrido / Seu percurso

PACK RULE Open the primary resources in the exact numeric order used in the delivery folder. Each main resource appears once in this route. Prompt libraries, editable forms and optional support resources should be opened only when required by the workflow. Apply optional resources only after the base result has been reviewed and approved.

NO.	PHASE	PRIMARY RESOURCE	APPLICATION
01	ORIENT	START HERE	Understand the complete Studio Pro structure, file hierarchy and recommended workflow.
02	PREPARE	Professional User Manual + Prompt Selection Matrix	Review the operating method and select the correct prompt or workflow for the project.
03	ACCESS	App Onboarding and Access + Prompt Builder User Manual	Activate the Prompt Builder and review the English, Spanish and Portuguese operating instructions.
04	BUILD	CORE Prompt Library · 11	Create the base result using the essential architectural visualization workflows.
05	SPECIALIZE	Professional Prompt Library · 45 + Preservation Modules · 6	Use a specialized workflow and add preservation controls when greater precision is required.
06	HUMANIZE	Humanization Library · 10	Add the primary approved human scenarios only after the base architecture and camera are approved.
07	EXTEND	Humanization Extension · 30	Use additional human scenarios only when required by the project and after the base result is approved.
08	MOBILITY	Vehicle Insertion · 15	Add vehicles only when road geometry, circulation logic and valid placement areas are clearly defined.
09	CAMERA	Architectural Camera Effects · 10	Apply controlled camera effects only after architecture, camera position and composition are approved.
10	CONTROL	LOCK Method	Protect immutable source elements and prevent unauthorized changes.
11	CORRECT	RESCUE Manual	Correct geometry, camera, material, scale or unintended modification failures.
12	MANAGE	Professional Client Kit + Editable Forms	Record references, approvals, requested changes, responsibilities and delivery decisions.
13	ADAPT	Platform Adaptation Notes	Transfer the workflow between supported image-generation platforms without losing control logic.
14	DOCUMENT	Project Consistency Workbook + Case Study Workbook	Register settings, results, decisions, series consistency and project evidence.
15	VERIFY	License and Responsible Use + Changelog and Update Policy	Confirm permitted use, version status and update conditions before final delivery or commercial use.

First controlled result

Primer resultado controlado / Primeiro resultado controlado

1. Activate the App with the purchase email.
2. Choose one base workflow and approve its result.
3. Use Camera Effects only when the source supports the operation.
4. Save/export the accepted prompt and complete the release gate.

LANGUAGE POLICY EN MASTER is the operational copy/paste text. ES and PT are reference translations. Prompts define a control objective, not a guaranteed result; verify geometry, camera, materials, light, scale, context and artifacts before delivery.
